PROFESSIONAL SUMMARY

Results-driven Full Stack & DevOps Engineer with hands-on experience building scalable applications and automating cloud infrastructure. Specialized in CI/CD pipelines (Jenkins, Groovy), AWS cloud services, Kubernetes orchestration, and Terraform. Adept at developing full-stack solutions using Python, Django, Node.js, React, and Next.js. Passionate about automation, performance, and delivering reliable cloud-native systems.

KEY ACHIEVEMENTS

- Cut deployment time by 40% by designing optimized CI/CD pipelines in Jenkins.
- Automated 80% of infrastructure provisioning using Terraform and AWS.
- Improved deployment reliability by 30% through Python/Go automation scripts.
- Delivered multiple full-stack applications with clean API integration and high performance.

PROFESSIONAL EXPERIENCE

DevOps Engineer — Ecloude (2024 – Present)

- Built and optimized CI/CD pipelines using Jenkins & Groovy, reducing release time by 40%.
- Automated AWS infrastructure using Terraform modules for scalability and repeatability.
- Deployed and managed Dockerized applications on Kubernetes (EKS).
- Created automation scripts in Python/Go to streamline operational workflows.
- Integrated ServiceNow with deployment workflows, improving change/incident management.

Full Stack Developer — Freelancer (2023 – 2024)

- Delivered full-stack web applications using Django, Node.js, React & Next.js.
- Built REST APIs with JWT authentication and documented them using Swagger.
- Designed and optimized SQL/NoSQL databases (PostgreSQL, MySQL, MongoDB).

CORE COMPETENCIES

Languages: Python, JavaScript, TypeScript, Go, Groovy

DevOps & Cloud: Terraform, Docker, Kubernetes, Jenkins, AWS, ServiceNow

Web Development: Django, Node.js, Express, React, Next.js

APIs: RESTful APIs, Swagger (OpenAPI Documentation)

Databases: PostgreSQL, MySQL, MongoDB

Tools: Git, Linux, CI/CD, Automated Testing

PROJECTS

- Little Lemon — Django app with JWT auth; reduced API latency by 20% after optimization.
- 3D Portfolio — React + Three.js interactive website; improved load time using asset compression.
- Banking App — Next.js financial platform with secure APIs and user role management.

EDUCATION

B.Sc. Computer Engineering — MTI University (2022)

CERTIFICATIONS

- Meta Full Stack Development with Django (Coursera)
- Meta Back-End Developer Capstone
- Programming in Python (Coursera)

LANGUAGES

Arabic — Native

English — Fluent

Spanish — Advanced
